

RIE
2006

TECHNICAL DATA

RIE COATING

RIE 2006 CLEAR

GENERAL DESCRIPTION

RIE2006 is a low temperature cure dry film lubricant for various substrates. This top coat is RoHS compliant.

RECOMMENDED USAGE

- Reduce galling of metal to metal contact
- Clear lubricant for Nylon insert or all metal lock nuts
- Alternative to conventional wax lubricants
- Decrease drive force when installing wood screws
- The coefficient of friction when applied over zinc plating is 0.07 +/-0.01
- Clear/Transparent
- A low film thickness buildup (threads and heads)
