

RIE  
4200

# TECHNICAL DATA

RIE COATING

RIE 4200 WHITE

CORROSION PROTECTIVE FINISH

## GENERAL DESCRIPTION

**RIE4200** is a dry to the touch thermosetting acrylic/epoxy coating. This topcoat provides excellent chemical and corrosion resistance.

## RECOMMENDED USAGE

**RIE4200** is recommended wherever a uniform appearance, high corrosion resistance and consistent torque/tension are required.

This coating is ideal for all fasteners, springs, clips and stampings.

Unaffected by typical hydrocarbon systems such as washer fluids, gasoline, oil and transmission fluid.
